

Static Eliminator Blowers

High frequency type

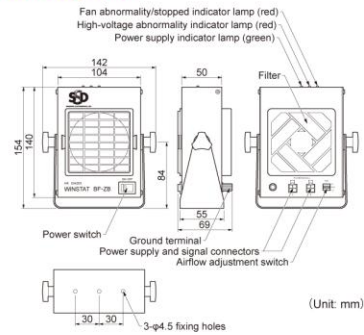

WINSTAT

Static eliminator blower WINSTAT BF-ZB

BF-ZB

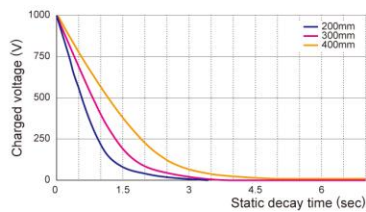

Dimensional Diagrams

Main Features

- Up to six units can be connected serially. However, only two units can be connected when the AC adapter is used.

Static elimination area

Model	BF-ZB
Input power supply	24 VDC (AC adapter supplied; compatible with 100 to 240 VAC)
Capacity	12 VA
Output voltage	2.0 kVAC
Ion balance	±10 V or less
Airflow	1.2 m ³ /min
Ozone density	0.05 ppm or less
Operating Environment	10 to 40°C / 15 to 65% RH (no condensation)
Filter	Prefilter level
Main unit dimensions	104×140×69 mm (W×H×D)
Weight	800 g
Noise level	48 dB (A)
Alarm functions	LED indication and signal output when the fan, high-voltage output or power supply stops
