

## LIQUID REAGENT ANTI-STATIC

### ISC 3000G ANTISTATICIDE CONCENTRATE CLOSEST THING YETTO "STATIC CONTROL INSURANCE"

Staticide is the key ingredient in many ACL anti-static solutions. Diluted and mixed with water or various solvents\*, it eliminates a host of static control problems – especially in the electronics, textile and plastics industries. Staticide Concentrate is available to save freight, handling and storage costs while offering greater flexibility in dilution

Staticide Concentrate can be mixed in the following concentrate solvent\* ratios to obtain these Staticide formulations:

- \* Heavy Duty Staticide- 1 to 99 (1 part Staticide to 99 parts solvent)
- \* General purpose Staticide – 1 to 99 (1 part Staticide to 99 parts solvent)

### ISC 2005/2002 HAEVY DUTY STATICIDE FOR POROUS SURFACES

Ideal for eliminating static related problems such as:

- \* Static electricity discharge on carpeting & fabrics
- \* Jamming of slipping of material during printing, packaging, or converting
- \* Ignition of combustible vapors, dust or solvents, causing fire or explosion

One gallon converts approximately 2,000 to 2,500 square feel and will last from weeks to months, depending on the application.

### ISC 2003/2001 GENERAL PURPOSE STATICIDE FOR NON-POROUS SURFACES

Solves static related problems such as:

- \* The attraction of dirt, dust and bacteria to all environmental surfaces, plastic products and product packing
- \* Charge generation on surfaces of tote boxes and carries used to process and store electronic components
- \* Damage or destruction of sensitive electronic equipment, components and sub-assemblies during their manufacture, shipping or receiving
- \* Data processing glitches" ... memory loss, data errors; paper jams

One gallon covers approximately 2,000 to 2,500 square feet depending on the application.
