

SURFACE RESISTANCE

Shoes Tester

ACL 750 COMBO TESTER KIT WITH SOFTWARE

- * Used to monitor and analyze wrist straps and hell grounds simultaneously in sensitive work areas
- * Comes with easy –to-use software; stores employee test results in the computer for one year
- * Meter conforms to ISO-9000 requirements
- * Accurately measures electrical resistance of wrist straps and hell grounders simultaneously from 500 kilohms to 100 megohms
- * Software can store reports for up to 2,500 employees
- * Software can be installed on any Window 95 and 98 or 3.1 compatible PC (except Window 3.1 for workgroups)
- * Includes meter, Windows-based software, and heavy-duty foot stand

Surface resistivity meter

ACL 380

Designed to test Anti-static mats, floor finishes, paints, wrist straps, smocks, foot wear, bags and containers.

- * Test range of $10^3 - 10^{12}$ ohms/square
- * Conforms with IEC 61340-4-1, ANSI/ESDAS 4.1
- * 9 volt alkaline battery

Surface resistance meter

ACL 800

MEASURES TEMPERATURE, HUMIDITY & RESISTIVITY

The Megohmmeter is an easy to operate, compact, lightweight, portable meter designed to measure temperature, humidity, and electrical resistance/resistivity. Using both internal and external test probes, the meter will, measure resistivity, resistance between two points, and resistance to ground according to EOS/ESD Association Standards, -S4.1, S7.1, S11.11, and European Standard CECC-EN 1000/15.

Accuracy : $10^3 - 10^8$ Ohms per square = $\pm 5\%$

$10^9 - 10^{12}$ Ohms per square = $\pm 9\%$
